

## *Crawford School Dialogue*

### *Asia's Economic Transformation: Implications for Australia*

A disastrous earthquake and tsunami in Japan, rapid economic expansion in China and sustained growth in India and Indonesia. These events are momentous in themselves and all have strong implications for the Australian economy. The Policy Dialogue focuses on recent events in these four economies and what they mean for Australia. The forum will begin with presentations on each of these four countries, followed by a panel discussion on cross-cutting thematic issues. Speakers include Professor Jenny Corbett, Professor Raghendra Jha, Professor Hal Hill, Associate Professor Ligang Song, Associate Professor Ross H McLeod and Dr Creina Day.

**Date:** Tuesday 12 April 2011

**Time:** 9.30am - 1.00pm
